## IN THE MAIL: Clinic succeeds with VFW's help

Thanks to the help of the VFW and other community partners, Third Street Clinic is able to provide access to health care services for low-income residents of Grand Forks and Polk counties who lack insurance or government medical assistance.

By: **Corey Mock**, Grand Forks

GRAND FORKS — Strong communities are created by strong partnerships. The VFW in East Grand Forks has proven just that.

Third Street Clinic benefited from the VFW "Sweet-Tarts of the Valley" fundraiser April 24. Thanks to the help of the VFW and other community partners, Third Street Clinic is able to provide access to health care services for low-income residents of Grand Forks and Polk counties who lack insurance or government medical assistance.

According to the Kaiser Family Foundation, one out of every seven adults in our community is uninsured and medically unprotected. Third Street Clinic is a private, nonprofit organization that works with Altru Health Foundation and other medical professionals in the community to address this need.

The staff and board of directors of Third Street Clinic appreciate our supporters and partners, including the VFW.

*Mock is director of Third Street Clinic.*
